Filter Cross Reference Policy

Complete Lube Supply makes every effort to ensure all cross reference information is complete and accurate. Cross reference information is primarily supplied to assist in product comparisons and should never be used to determine actual vehicle applications. Filter vendor applications vary and as such, some filters may not be a direct cross. **To ensure the correct Service Champ filter is installed always refer to the Service Champ Filter Application Guide (part# FC1). Neither Complete Lube Supply or its vendor partners accept any liability for errors in filter applications as result of cross referencing. Installing Service Champ filters based on cross reference information is done solely at the installer's risk.**
